

This is my edited bar plot work

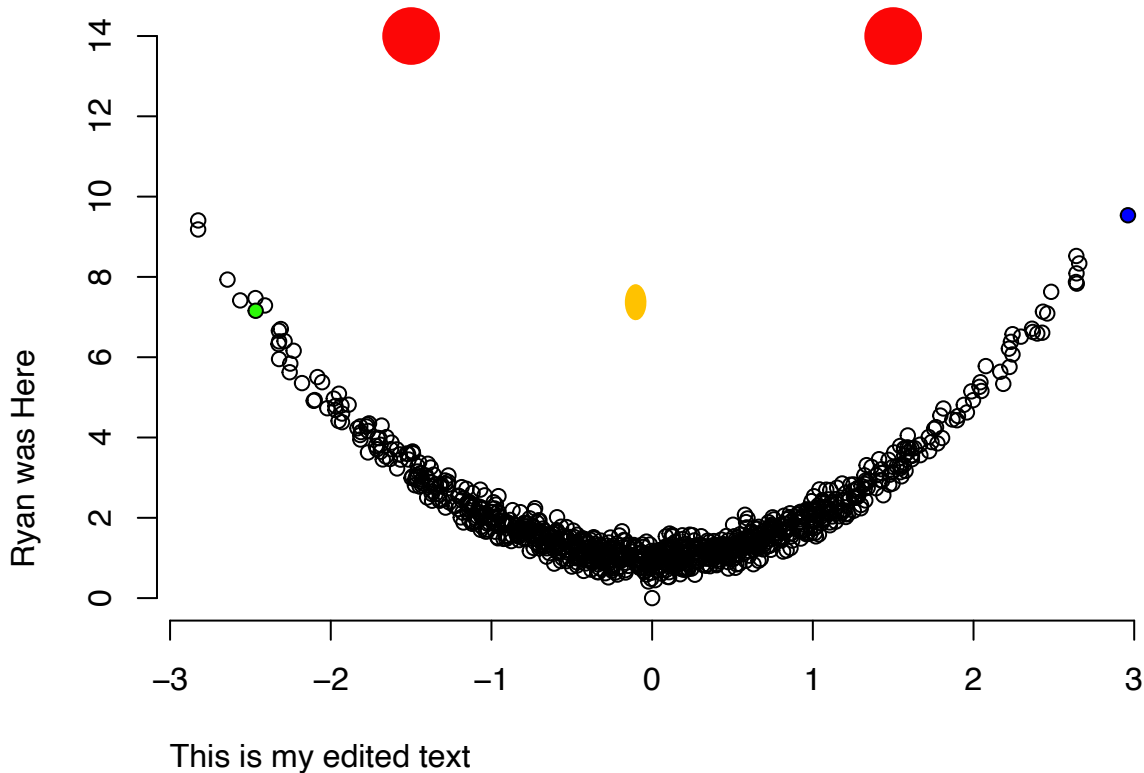

Context: this is the story of my data

This is my title

testing

A diagram of a torus (donut shape) divided into four colored segments. The segments are labeled as follows: a cyan segment at the top labeled 'here', a red segment on the right labeled 'everywhere', a dark teal segment at the bottom labeled 'there', and a light red segment on the left labeled 'nowhere'. The labels are in a black, sans-serif font and are rotated to follow the curve of the torus.
